

## AND OFF TO SUMMER CAMP THEY GO!

Camp Seaquarium – Summer 2008 runs from June 9 through August 15

As summer approaches, parents are already making plans where to send the kids to camp. Miami Seaquarium is making that decision easy having the only camp in South Florida that offers high school children the opportunity to assist veterinarian staff in manatee rehabilitation. Only at Camp Seaquarium children will learn in a hands-on way how to help save these threatened Florida natives. But there is plenty of fun for children of all ages. Camp Seaquarium offers students from kindergarten to high school alternative camp themes with green initiatives and the opportunity to help save our planet by participating in beach clean-ups.

And that's not all. Students from kindergarten to high school will *Go Green* and become 'Eco- Explorers'. From kinder to forth grade campers will have the opportunity to learn about 'Animal Voyages', fifth graders will learn about 'Marine Ecosystems', sixth grade will learn about dolphins in 'Dolphin Study' and high school students will focus on 'Sea Turtle Studies'. With these themes, campers will enjoy fun-filled days of education and conservation, animal interactions, shows, activities and much more. Camp Seaquarium – Summer 2008 runs from June 9<sup>th</sup> through August 15<sup>th</sup> to camper's ages 5-18.

Curriculum for each grade level at Camp Seaquarium will revolve on a one-week schedule with additional weeks optional. Camp hours are Monday through Friday from 9a.m. to 4:30 p.m., with optional early and late care for an additional charge. Parents who have more than one child participating in Camp Seaquarium and/or who are annual pass holder will receive a discounted rate. Middle and high school students may include a "Dolphin Odyssey" experience for an additional \$150.

For Summer Camp enrollment or additional information, please call 305-361-5705, ext. 207 or 298. Summer Camp information & registration forms are available on our website at [www.miamiseaquarium.com](http://www.miamiseaquarium.com).
