

Dolphin Harbor at Miami Seaquarium

This summer, Miami Seaquarium has opened, *Dolphin Harbor*, a new \$5 million facility for guests to meet and learn about dolphins. This new addition to the park will allow guests to get up-close and personal with one of the world's most fascinating creatures. It's an amazing experience that no one could ever forget.

Swim with Our Dolphins

Our Swim with Our Dolphins Program is an educational two-hour experience. Participants in the program receive a classroom presentation by one of Miami Seaquarium's dolphin trainers, followed by a question and answer session. You will then change into a wet suit and get into the water. Your in-water, dolphin interaction will include feeding, touching and learning about these magnificent animals. You will also be able to take "rides" with our dolphins across the pool. \$189 plus tax per person. Restrictions apply.

\$124 plus tax per person for Florida Residents, September 1 to December 15

Dolphin Encounter

Beginning September 1, Miami Seaquarium will offer a new way to meet a dolphin. The Dolphin Encounter program offers an exciting way of learning and interacting with our dolphins, without having to get in the water and swim. Participants in the two-hour Dolphin Encounter program learn about dolphins in the classroom from one of the park's dolphin trainers, then wade out into the pool to meet our dolphins. In this 'hands on' experience, you will have a chance to feed and touch a dolphin as well learn about dolphin training techniques.

\$139 plus tax per person. Restrictions apply.

\$94 plus tax per person for Florida Residents, September 1 to December 15
