Grab your shirt and scissors. Cut the neck and
the sleeves of the shirt off
Leave a strip from each sleeve, needed for later
steps. (as shown in second image)
Next, use the hole puncher to make two holes at
the bottom of the shirt
Turn your t-shirt inside out
Slide the strips you cut from the sleeves, place
them through the holes and tie them
a. If needed or for preference, you can cute
more stripes from the sleeves and make more
holes to make the bottom of the tote more
secure
Ta da - you have made a tote bag!

Don’t forget to tag us, we would love to see your work!
